Once again, we will be funding sports clubs for free to allow more children to access these clubs. Already, we are seeing higher uptake from our pupils. We are also planning more after school sports clubs which focus on different sports and skills. These will hopefully feed into some matches and competitions against local schools. We have also been looking into different clubs such as yoga, which will help to improve children's core stability and act as a nurture group at the same time.

Last summer, our playground was resurfaced. We are going to spend some of the Sports Funding to install new playground markings that will encourage the children to develop physically at playtimes too!
