

Communication and Language

We are practising listening to others, taking turns during conversations, looking at each other and responding.

We are also spending time sharing, taking turns and improving our vocabulary to each other.

During this term we will develop our everyday communication skills, speaking clearly, changing our volume and pitch.

Physical Development

This term we are lucky to have coaches from pro-coaching to support the teaching of specific skills in our PE sessions. The children thoroughly enjoyed their first session this week and were commended by the coach for their good listening and team work. I am very proud of them. We will also be developing our writing grip, posture and core strength to draw, paint and write.

Personal, Social and Emotional Development

This term we will be making our class charter, rules that will keep us safe and help us to have fun without hurting ourselves or others.

We will be looking at friendships, falling out, making new friends and working in a groups.

Literacy

We will be learning new phonic sounds, practising CVC short words linked to spelling and starting to write short words. We will also be reading information books as a stimulus, making links and developing our reading confidence.

Autumn Term

Oak Class Topic Web

Mathematics

In maths we will be counting reliably, understanding numbers, using the vocabulary; less, more, greater, fewer, same.

We are also verbally using our language of teen numbers.

Understanding the World

We will be learning about recycling and how we can reuse materials to make something new. We will also look at sea pollution in other parts of the world.

This terms topic is;

'Environmental Heroes'

Expressive Arts and Design

As part of our 'WOW' day we will be upcycling objects. Independent activities will include painting and colour mixing. We will be creating self-portraits using 'bits and bobs' and will practise drawing real life objects.
